

## Global Conflicts Unit Project

---

*Throughout this unit, we have been reading and viewing various texts related to global conflicts. Our guiding question has been “what is the cost of war?”*

*This unit project will give you an opportunity to demonstrate your understanding of this topic, as well as your writing and/or visual design skills.*

### Step 1:

Choose your product type

You have several options for completing this project. Each option relates to different ELOs for this course:

- ❖ **Paragraphs** You will write a minimum of two paragraphs that use examples from the texts we have studied to address the question “What is the cost of war?”
- ❖ **Visual Design** You will design an awareness poster (could be digital) about a current issue related to global conflicts today (e.g. conflict diamonds, child soldiers, landmines). The poster must include both graphics and text.
- ❖ **Creative Writing** You will write either a poem or short story that relates to the theme of global conflicts, and touches on “the cost of war” in some way.

### Step 2:

Create your product

- Take a copy of the handout specific to the option you chose (Paragraphs/Visual Design/Creative Writing)
- Use the information and criteria on that handout to help you create your project.

### Step 3:

Self and Peer Editing

- Use the peer editing sheets attached to your specific handout.
- Have TWO different classmates fill out the peer editing sheets.
- Consider their comments and assessment, and complete some final edits on your project.
- HAND IT IN! 😊
