

# The Industrial Revolution

1750-1850s

# Learning Outcomes

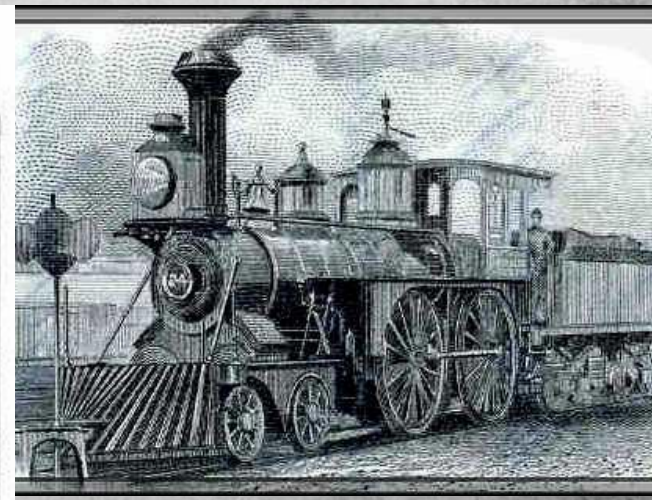

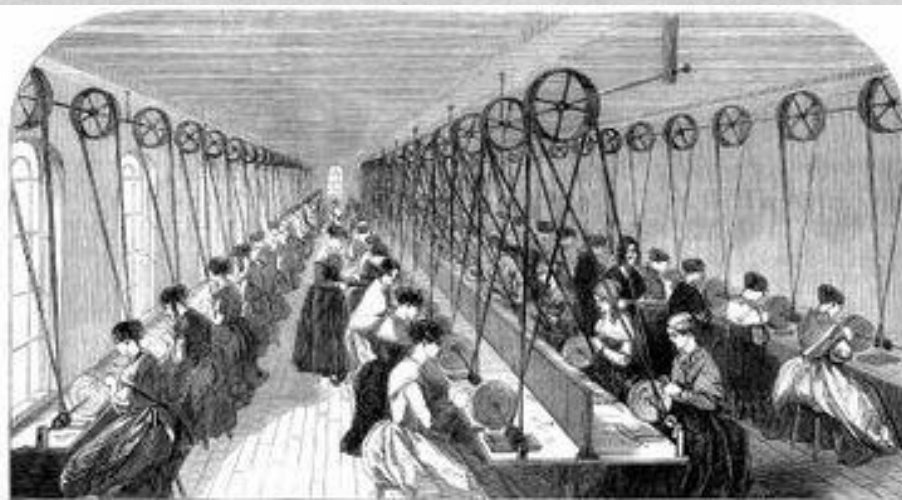

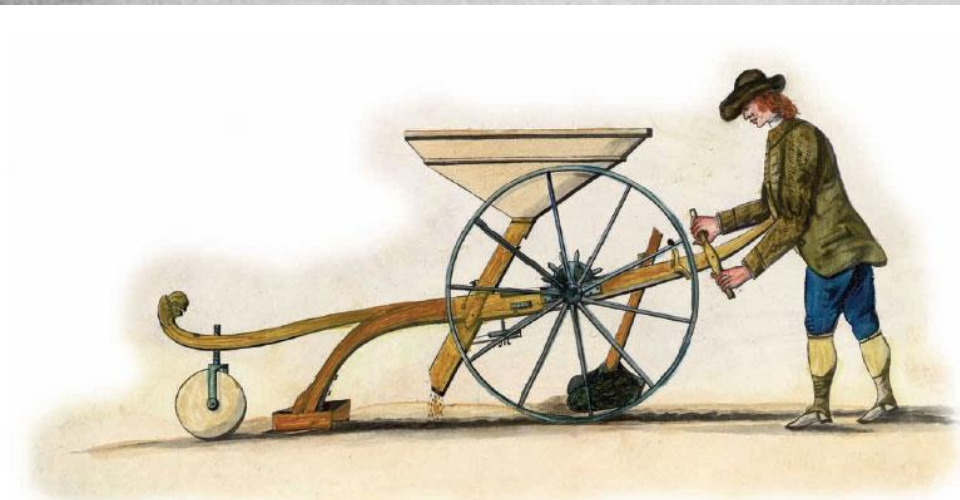

By the end of this lesson, I can...

- ✓ Define **industrialization/industrialized**
- ✓ List some of the **changes** (positive and negative) that occurred because of the Industrial Revolution

After 1700, the ways of **growing food**, and **manufacturing and transporting** goods changed completely in Great Britain.

It was such a huge change that it was labelled a **revolution**, called the **Industrial Revolution**.

# Industrialized

Definition:

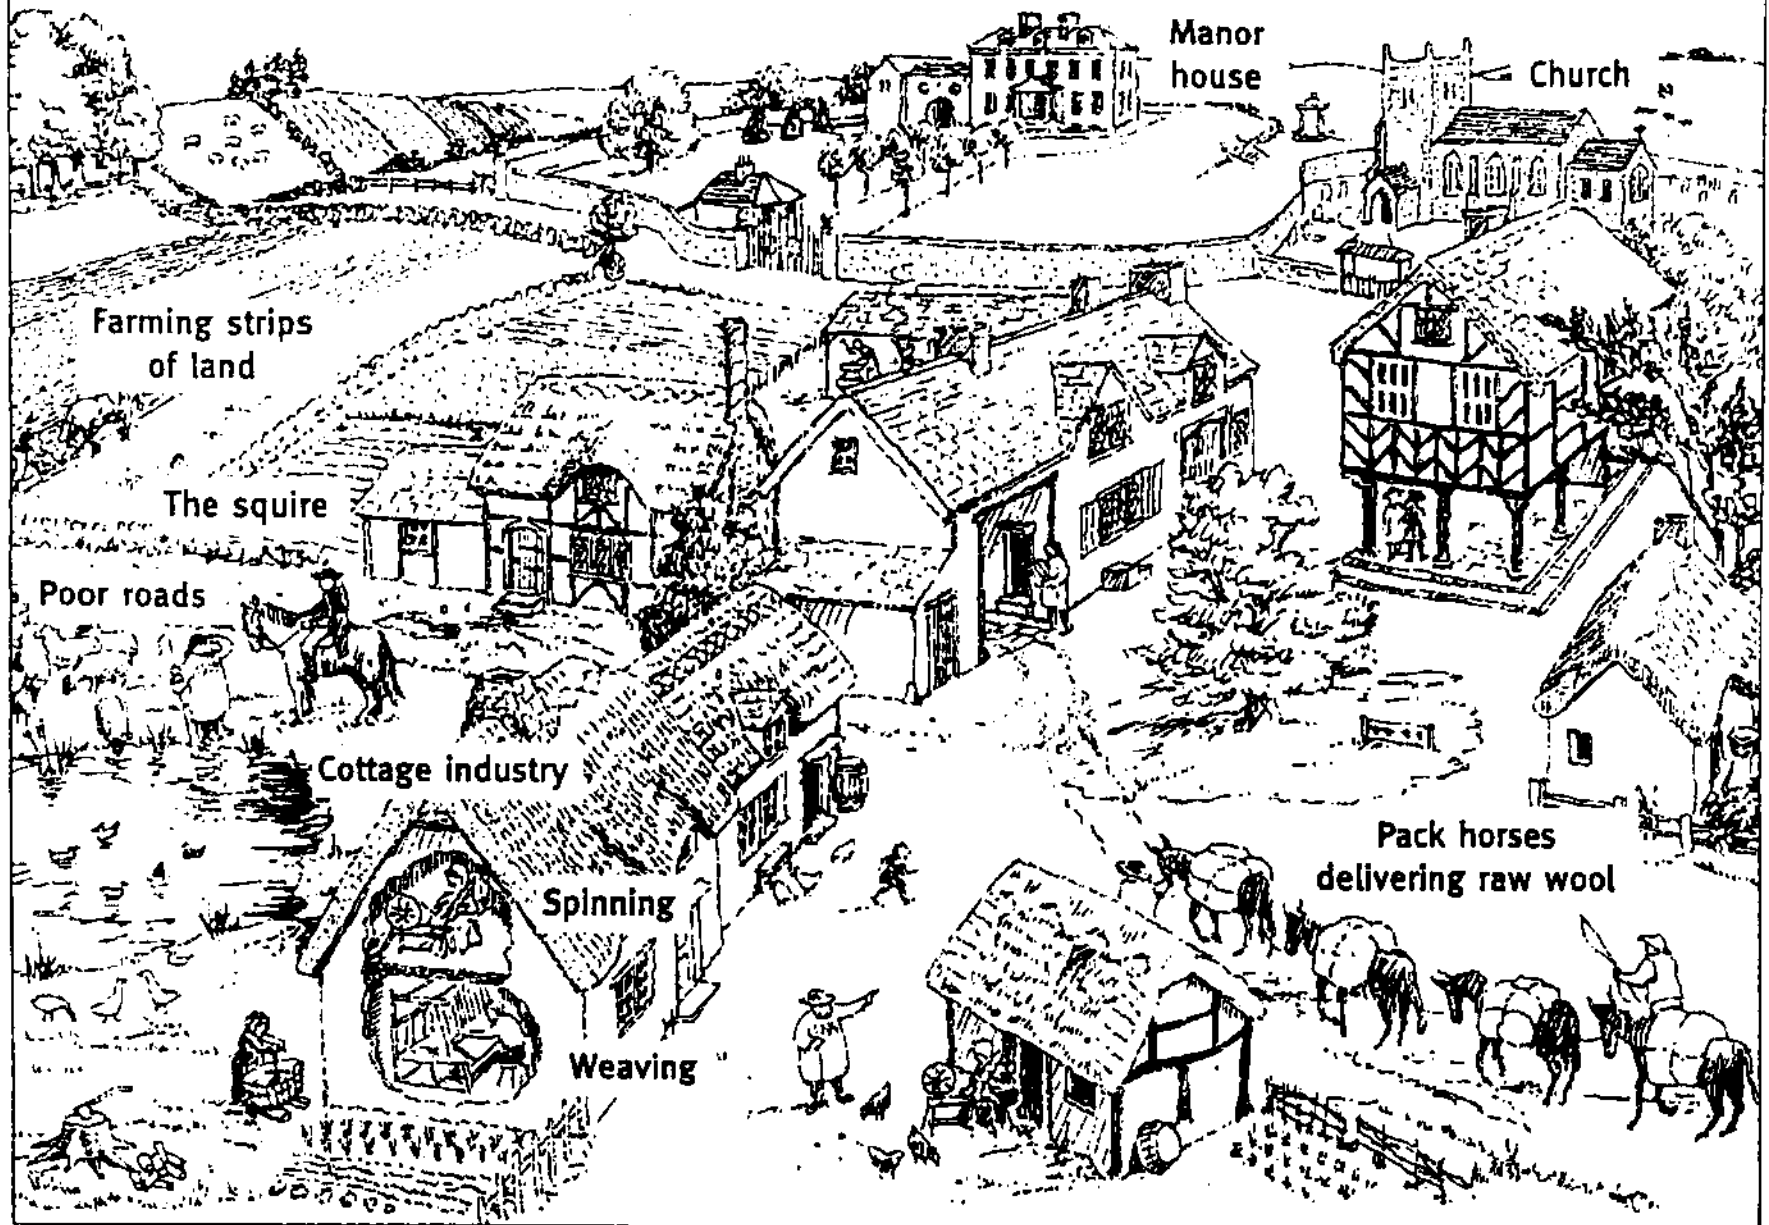

**An economy based on industry\*, not agriculture**

(Industry = processing of raw materials and making goods in factories)

Source  
D

### A scene in Britain in about 1750.

Manor house

Church

Farming strips of land

The squire

Poor roads

Cottage industry

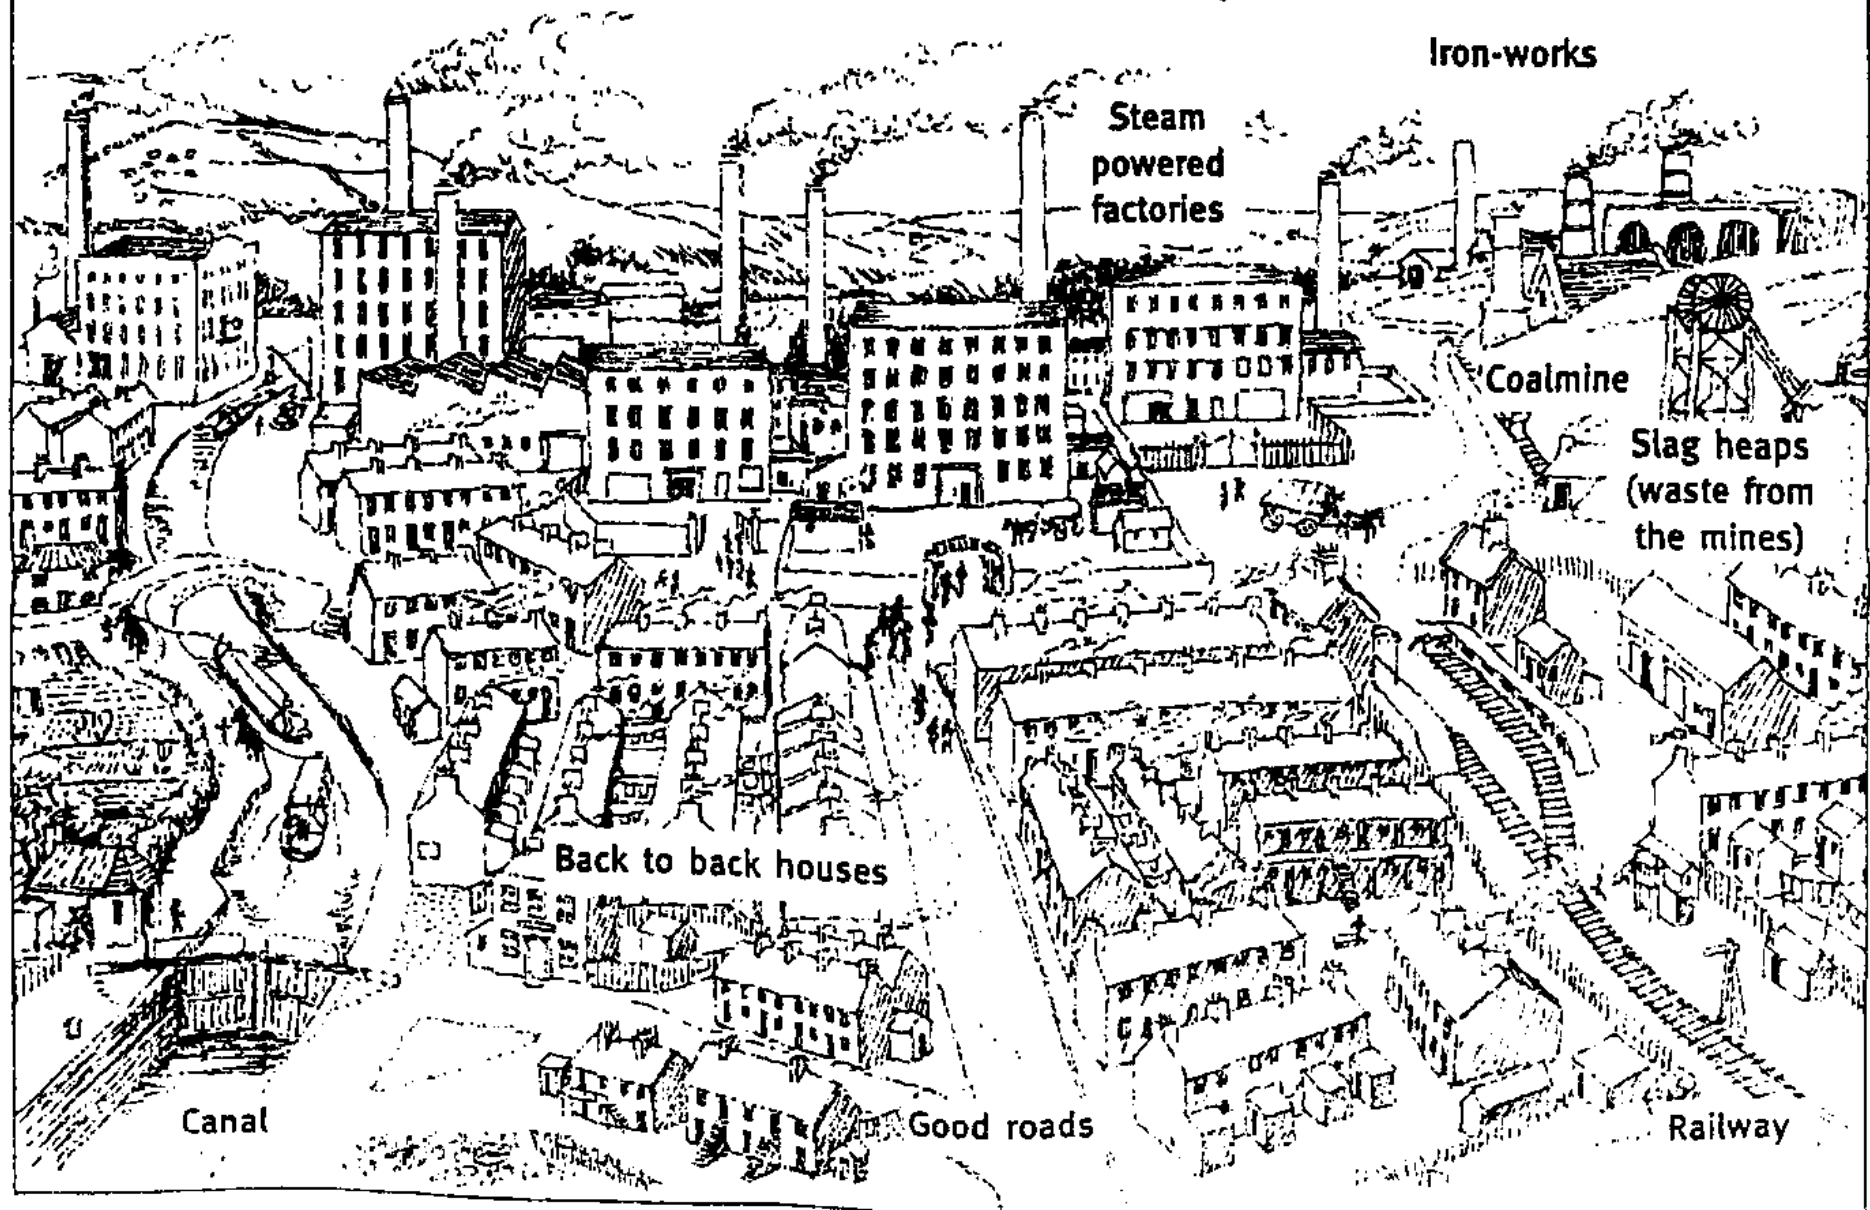

Spinning

Weaving

Pack horses delivering raw wool

Source  
E

### A scene in Britain in about 1900.

Iron-works

Steam  
powered  
factories

Coalmine

Slag heaps  
(waste from  
the mines)

Back to back houses

Canal

Good roads

Railway

# Changes:

- New ways of farming
  - Increased population
  - Towns and cities grew (urbanization)
  - Employment in factories
  - Economy grew
  - Many became wealthy
- Bad working conditions
  - Dirty, crowded cities
  - Child labour
  - Workers struggle for rights

# The Industrial Revolution

- Spread to other countries
- Economy became more global

# The Industrial Revolution

Changed the way that **humans** interacted with **nature**

The exploitation of the earth's resources would greatly improve the material well-being of humanity...

# Task: Need/Want

- In small groups (2-4)
- Imagine that you are living in Britain in the 1700s.
- Place the items at the top of your sheet in either the **NEEDS** or **WANTS** column.

# CONSUMERISM

The belief that it is good for people to spend a lot of money on goods and services

# Materialism

A desire for wealth and material possessions with little interest in ethical or spiritual matters

# Your ticket out the door...

Hand me your completed questions/notes from today

# Factors that Contributed to The Industrial Revolution

# Learning Outcomes

By the end of this lesson, I can...

- ✓ Explain which **factors are needed** for industrialization to occur
- ✓ Explain the **causes** of the Industrial Revolution
- ✓ Describe how these **causes are connected**

# Think/Pair/Share

What kinds of things would need to be present (**factors**) in order for a country to become **industrialized**?

# Factors leading to industrialization...

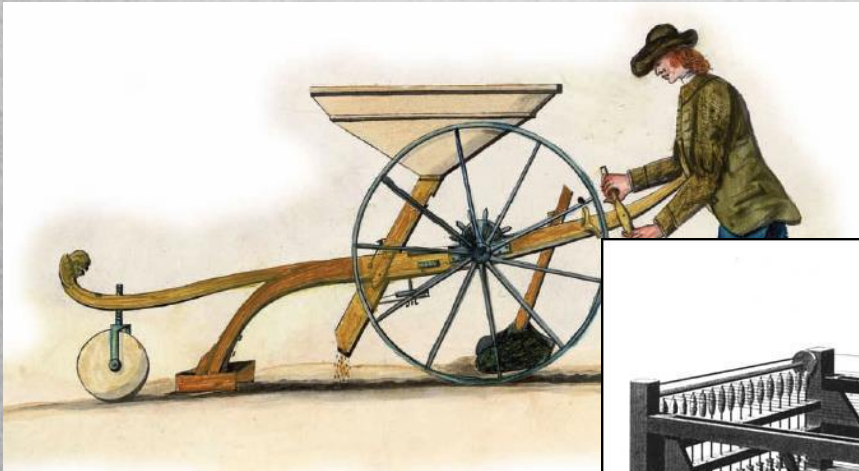

You need the basic materials to be able to produce goods to sell...

**You need  
RAW MATERIALS**

# Factors leading to industrialization...

You need to be able to do things faster or in different ways

You need  
**NEW TECHNOLOGY**  
and  
**INVENTIONS**

# Factors leading to industrialization...

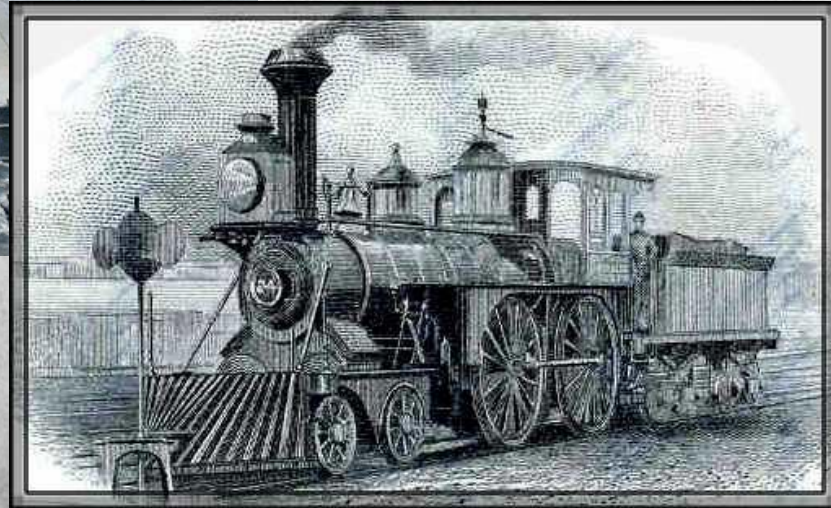

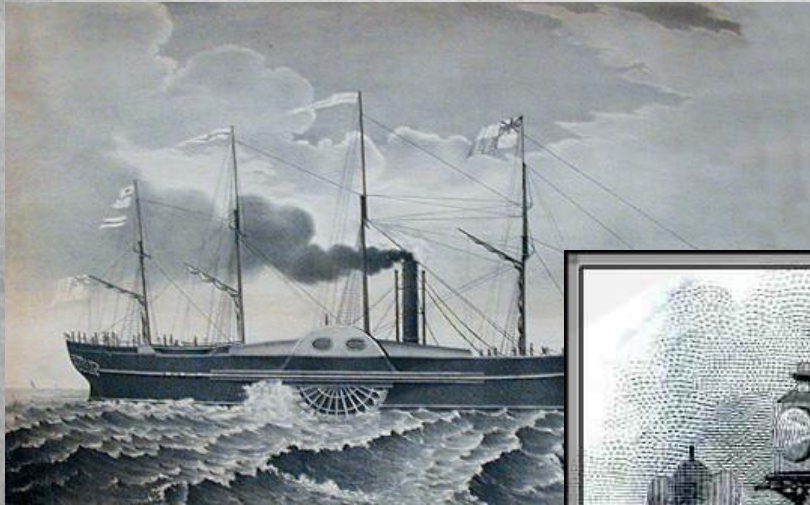

You need people to work in factories...

**You need a  
LABOUR SUPPLY**

# Factors leading to industrialization...

You need an efficient way to move goods or raw materials from one place to another...

**You need  
TRANSPORTATION**

# Factors leading to industrialization...

You need laws that help business and industry...

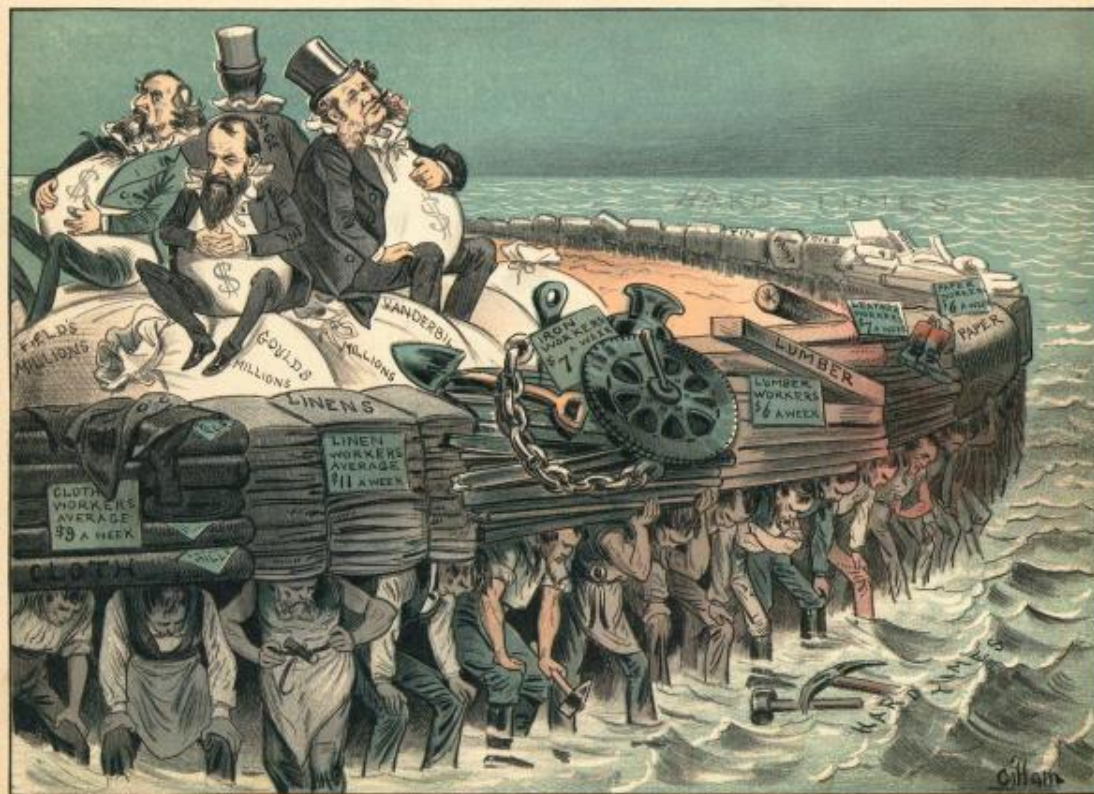

You need  
**GOVERNMENT  
SUPPORT**

# Factors leading to industrialization...

You need money to invest in business, factories, etc...

You need  
**CAPITAL**

# **Task**

- 1. Read “Why Britain?”**
- 2. Discuss questions at the bottom**
- 3. Complete “Causes” connections and questions**
- 4. Hand in, or complete for homework**
