

# Assembly Line Simulation Questions

Directions: After you have completed the Assembly Line Simulation, complete the questions below.

1. Describe your factory experience.
2. Describe three ways working in a factory was different than working alone.
3. How would the toy soldiers be different if they were created in a factory as opposed to created by one person? Why would they be different?
4. Why were the salaries of workers different? Were there any differences in the work of each person? If there was not a difference, why were males and females paid different wages?
5. What is the difference in the types of jobs males and females performed?
6. If you were a factory worker during the Industrial Revolution what type of reforms would help improve your working conditions? What would be the best way to obtain these reforms?
