Why Explore?: What to Include

The Past

Today

Terms: The ideas- definitions

DEFINE and provide an EXAMPLE for each of these:

- Imperialism
- Colonialism
- Nationalism
- Mercantilism
- Indigenous Peoples

Explorers

Look up the following explorers:

- Christopher Columbus
- Vikings
- John Cabot
- Jacques Cartier

Find this information about them:

- Who were they? (basic info)
- Why did they explore (what were they looking for)?
- Where did they land and explore?
- Which indigenous groups did they come in contact with, and how did they treat them? (positives AND negatives)

Other Reasons for Exploring

- 1.
- 2.
- 3.

(make sure you give details with the reasons)

Why do companies set up corporations/businesses in third world/developing countries? (try to give a few key reasons)

How are Indigenous Peoples (or locals) impacted? Do they lose their traditional lands? Does their standard of living increase/decrease?

Select 2 companies in the last 20 years that operate in developing countries (countries outside of North America and Europe)

ONE should be resource-based (e.g. oil, diamonds, coal, cocoa, etc.)
ONE should be manufacturing/factory based (e.g. factory that makes clothing or other items)

For each, answer the following:

- What is the business? What do they do?
- How have locals/indigenous peoples been impacted?
- Provide positive and negatives that these indigenous peoples have experienced.
- Why would a government let a foreign corporation treat some of its peoples badly?
- What sort of damage or long lasting effects does this have on the land/environment?
